Evolving Intellectual Property Horizon and Landscape

IP Expansion And Innovation

- Total annual patent applications skyrocketed to a historic high of 1.4 lakh in the 2025–26 fiscal year. The volume spike represents an unprecedented annual increase of 30%.
- Local Indian resident applicants now command an overwhelming 69% of all total patent. This milestone officially reverses a decade-long trend previously dominated by foreign multinational corporations.

Corporate Titan & Global Outreaches

- Reliance Jio jumped a massive 320 places to debut in the World Intellectual Property Organization's (WIPO) elite global top 20 rankings. Jio holds over 6,800+ global filings specifically targeting core 5G, 6G, and next-generation Artificial Intelligence technologies.
- The Ministry of Education sent 120 elite patent-backed deep-tech startups as a part of "Bharat Innovates 2026" venture to Nice, France. This international trade cohort successfully unlocked cross-border manufacturing deals and foreign venture capital across 13 industrial frontiers

Clean Energy & Manufacturing Breakthroughs

- India officially commissioned the world's first nuclear process heat-based hydrogen facility in Kalpakkam. The facility leverages a zero-carbon Copper-Chlorine thermochemical loop secured by new thermal decoupling patents.
- The Patent No. 590105 was granted to the manufacturing firm "OM Galaxy" for an advanced Split-Type Hot Runner Manifold System. The high-tech polymer innovation drops processing downtime for corrosive industrial plastics by 90% while radically reducing toxic gas emissions.

Healthcare Frameworks & Market Activation

- The Indian Pharmacopoeia Commission introduced the first-ever global quality benchmarks for blood components. The regulatory rollout coincides with an unprecedented quarterly spike in low-cost, indigenous medical sensor grants.
- The government launched a nationwide administrative campaign “**IP Catalyst Initiative**” to solve local patent commercialisation backlogs. The initiative is designed to push theoretical electronics and IT patent grants directly into scalable commercial market products.

IP News

- An Indian High Court judge, Justice Prathiba M. Singh, has become the first Indian judge to receive a prestigious international honour for contributions to intellectual property law.
- The GI-tagged Shaphee Lanphee, a traditional handwoven ceremonial shawl from Manipur symbolising honour and cultural heritage, has been featured on the tail of an Air India Express aircraft. The initiative showcases India's rich GI heritage to millions of passengers, taking the state's iconic textile craftsmanship to the global stage.
- The new website for the CGPDTM was launched by the Honourable Commerce and Industry Minister Sh. Piyush Goyal on 9-March 2026.
- As part of its digital transformation initiatives, the Office of the CGPDTM has rolled out a new Trademarks Public Search Portal with enhanced search features and a user-friendly interface. The platform aims to streamline trademark searches and improve accessibility for all stakeholders.

Reflections

सृजनिका (Srujanikaa) - An Essence of Creativity and the Beauty of a New Creation is more than a newsletter.

It is a reflection of shared learning, meaningful interactions, diverse voices, and collective growth. Through every page, it captures not only events and experiences, but also the spirit of unity, creativity, and collaboration that shaped this journey.

From classrooms to conversations, from cultural evenings to moments of quiet reflection, this experience has strengthened both professional understanding and lasting human connections. Each contribution, memory, and shared perspective has become a part of a collective narrative that continues to evolve.

As this edition concludes, it does not mark an end, but the continuation of a growing journey. With many more stories yet to unfold, **Srujanikaa** will continue to celebrate learning, expression, and the shared experiences that connect us all.

*"One Batch. Many Stories.
One Nation. One Future."*
