

## INNOVATIVE SCHEMES

### ❖ **STAR Commandments**

- Strive hard towards Excellence and shall Never give up
- Think Big and Aim high
- Always stand for Justice and (shall not do anything illegal)
- Regular, Punctual, Honest and Hardworking - and will Never beg or cheat
- Scientific in our approach not believing in Superstitions - along with protecting my Environment, Rich Heritage and Culture

### ❖ **STARS branding:** - The students, teachers and the staff will identify themselves as STARS (Scheduled Tribe Ashram Residential School).

### ❖ **Study Hour Activities:** The study hours should be made more interesting for the students. For this purpose we have designed a list of activities and time – table. The details are given towards the end of this booklet

### ❖ **Know your Government :-** The students in batches will be taken to nearby government offices on Saturdays

### ❖ **Farming Techniques:** - The Mandal Agricultural Officer should take the children to the nearby by field and explain the different activities involved in farming. He should explain what are the latest techniques, about MSP, about agricultural credit (KCC), the cost involved in cultivating different crops/ acre etc.

### ❖ 5-Day School Reopening Festival – **Badi Baata Pandaga** - was organized by ITDA, Utnoor as part of its education program. The main aim of the program is to inculcate a sense of happiness among the tribal children in coming to school and also their parents in sending their wards to school. The program involves a series of playful ways of learning among children like nature walk, painting competitions, debating, elocution, song and dance competitions.

### ❖ The main objective is to insure a belief system among children in their schools which in a long way could ensure belongingness to their institutions. The program also vies for a participative approach from the teachers who shall enrol children shying from schools as drop-outs. The dropped-out and never enrolled children are joined in schools to create a feeling that schools are best places to be for their age

### ❖ ITDA Utnoor have organized 3 days ITDA level **Sports & Cultural Meet** inaugurated by Hon'ble chief Justice of High court and Commissioner for Tribal Welfare, TS, Hyderabad.

### ❖ Around 1000 Tribal Students from TW institutions have participated in various Sports events

### ❖ During the Sports meet ITDA have conducted **Giri Utsav-2016**. For the first time ITDA organized Mini Exhibition for the Tribal Students who enjoyed a lot with playing material, Food Court and cultural activities.

- ❖ The **Christoph von Furer Haimendorf, study circle** have been inaugurated by MP of Adilabad Sri. G.Nagesh and MLAs of Asifabad and Khanapur on 11-01-2016. The study circle is equipped with Library and Computer Lab with internet facility for the use of Tribal Students

#### G.C.C

- ❖ **Giri Bazars:** 19 Giri Bazars have been established in Tribal remote villages to provide quality Essential commodities
- ❖ 21 **Giri Shops** are being successfully run by Self Help Group women where there are no D. R. Depots just like weekly shandies
- ❖ In Co-ordination with ITDA Giri Super Bazar have been established at Utnoor on 02-10-2015 with an outlay of Rs. 10.00 lakhs and proposal have been submitted to establish one more super Bazar at Asifabad.
- ❖ 17 Minor Forest procurement centres are being run by Self Help Group women through Village organization
- ❖ Honey Processing unit have been established at Nirmal
- ❖ Essential Commodities are being delivered to Door-to-door through Giri Vehicles by GCC

- ❖ With the intention of reducing the IMR and MMR in the tribal and areas ITDA Utnoor has embarked on the ambitious **Project AVVAL** (AVVAL means mother in Gondi Language) which is a holistic approach taken by ITDA, Utnoor to improve maternal and child health. Since inception, the Project has served 6961 pregnant tribal women.

- ❖ For the first time, a two days **Giri-Utsav** have been conducted on 16<sup>th</sup> & 17th September 2016 to bring out the tradition and culture of the Tribals of Adilabad District. Tribals of all communities have participated and presented their cultural activities.

- ❖ **Sustainable agricultural development Through ICRISAT under VKY:** Thiryani, Wankidi and Karameri mandals of Adilabad are some of the most backward regions inhabited by tribals. Establishment of value addition centers for primary processing and for providing market linkages would be an effective intervention. The agriculture and farming systems that the smallholder farmers practice are largely traditional that use local indigenous seeds passed on for generations which produce lower yields, thereby resulting in a not-so-profitable agricultural outcome. About 1000 farm households are targeted in the selected three mandals of Adilabad District. For a focused approach and to show higher impacts, a group of 5 to 6 villages will be selected for project activities. These selected farmers will include marginal, small, and mid-size farmers including men, women, and youth for balanced representation of the community. Further, the pilot plant facility will be initially managed under ICRISAT supervision,

- ❖ **Establishment of Dall Mill Through ICRISAT:** One of the main objective of the project is to establish primary processing units: Mini Dal-Mills and a Sorghum Processing Unit. ITDA-Utnoor with recommendations from the equipment supplier have visited the potential sites and provided suggestions, recommendations and modifications to existing and new infrastructure requirements. The Team identified Mandal Samakya office building at Wankidi mandal and ITDA godown at Tiryani as prospective places to set up pilot pigeonpea processing plants to be run by farmers

❖ **Improving dietary diversity through introduction of nutri-food basket** in tribal households of Adilabad, Mancherial, Komaram Bheem-Asifabad Districts of Telangana - Transitioning tribal households from nutrient deficient diets to diverse nutritional foods Through Commissioner of family welfare. The major objective of this project is to provide the tribal population with food products that supplement their existing diet with the aim of improving the dietary diversity and overall nutritional intake which in the long run shall facilitate in improving key nutritional parameters such as reducing underweight among children and improving the hemoglobin levels of the presently anemic population. It may be highlighted that the products to form part of the proposed nutri-basket shall be designed to diversify and supplement the existing diets of the target population, and are not fortified with additional micronutrients to immediately address nutritional deficiencies. Specifically the project focuses on introduction of a nutri-food basket among identified tribal households in Utnoor of Adilabad, Tiryani of Komaram Bheem-Asifabad and Kazipet of Mancherial with the aim of transitioning tribal households from a nutrient deficient diets to consumption of diverse nutritional foods. Four food products will be formulated and designed to deliver adequate amounts of energy, protein, fat and micronutrients when consumed. The following food formats will be looked into and customized based on taste and preferences of the tribal population:

- 1) Nutrient rich Porridge mix
- 2) Nutrient rich Upma mix/Nutrient rich Kichdi mix
- 3) Nutrient rich cookies
- 4) “Energy and nutrient dense Food” (ENDF)-Spread

### Products served as breakfast

#### Through Anganwadi centers

##### Breakfast per person\*

- 150 gm of cooked sorghum
- 50 gm of Energy dense nutrient food
- 20 gm of cookies
- 150 gm of cooked multigrain meal

\* Combination of any two items on alternate days. # RDA as per ICMR guidelines

#### Recommended dietary allowance\* (%) fulfilled by nutri-food basket products

	Children (3-5 y)	Adolescent girls	Lactating mothers	Pregnant women
Iron	14	9	8	7
Calcium	15	10	6	6
Energy	20	16	10	10
Fat	42	48	23	35
Protein	36	17	15	17

### Evaluation to assess impacts

#### Non-invasive haemoglobin measurement device

Photo: Alina Paul-Bossuet, ICRISAT

Baseline measurements taken for haemoglobin count, weight, height and mid-upper arm circumference

#### Plan to supply for 9 months

##### 5069 beneficiaries

- 28 tons jowar meal
- 28 tons multigrain meal
- 28 tons Energy dense nutrient food
- 11 tons of nutri-cookies

Final assessment to analyze impacts post 9 months
