# 1. What is it?

- The construction was started in 1896 and was completed in 1906. The original building was a [puce](#)-colored brick building. The bricks used to build the building were brought from [Burma](#).
- The building had seven wings, at the centre of which a tower served as the intersection and was used by [guards](#) to keep watch on the inmates; this format was based on Jeremy Bentham's idea of the [Panopticon](#). The wings radiated from the tower in straight lines, much like the spokes of a bicycle wheel.
- Each of the seven wings had three stories upon completion. There were no dormitories and a total of 696 rooms. . Each room was 4.5 by 2.7 metres (14.8 ft × 8.9 ft) in size with a ventilator located at a height of 3 metres (9.8 ft).
