

Repetition and Redundancy

Repetition, if used well, can be a good tool to use in our writing. It can add emphasis to what we are trying to say and strengthen a point.

pay *any* price

bear *any* burden

meet *any* hardship

support *any* friend

oppose *any* foe

Redundancy is the repetition of a word or phrase that does not add anything to the previous meaning; it just restates what has already been said.
