email : dg@mcrhrdi.gov.in

MAKE IN INDIA

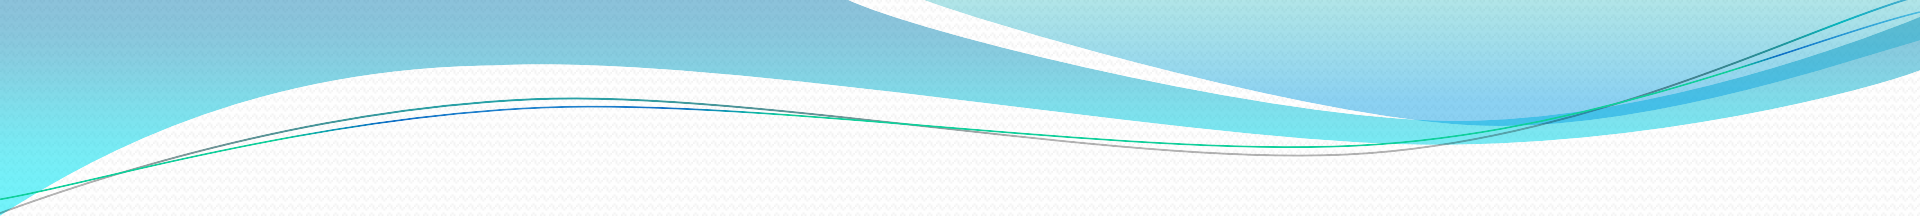

- TSiPASS - and a
Telangana Perspective

Some Points to ponder

- Current Account Deficit of 48 billion
- India's trade deficit reaches a record high of \$176 billion in 2018-19
- Contribution from the manufacturing sector to India's Gross Domestic Product (GDP) has remained stagnated at around 16% for the past 25

Why?

- The Make in India programme is very important for the economic growth of India as it aims at utilising the existing Indian **talent base**, creating additional **employment** opportunities and empowering secondary and tertiary sector.
- Bringing **Technological** Progress
- Changing the Structure of the **Economy**
- **Value Addition**

- 
- ...
- Lewis Model-A transfer of labour from low productivity agriculture to high productivity industry results in an immediate increase in overall productivity and income per capita. This transfer has been a major source of growth in developing countries
 - The “Big Push “ theory by Paul Rosenstein-Rodan emphasizes that underdeveloped countries require large amounts of investments
 - W.W. Rostow when he discussed his “The Stages of Economic Growth”.

What is Make in India

- Is much more than an inspiring slogan.
- It represents a comprehensive and unprecedented overhaul of out-dated processes and policies. Most importantly, it represents a complete change of the Government's mindset – a shift from issuing authority to business partner, in keeping with Prime Minister's tenet of 'Minimum Government, Maximum Governance'.

India's Competitiveness

- Future Ready: adaptability and agility
- Technological Readiness: remarkable performance on the Internet and communications technologies
- Infrastructure Pillar: effective modes of transport as well as extensive telecommunications network and electricity supply
- Higher Education: the quality of education as well as on-the-job opportunities for upskilling
- Institutions , financial market development , market size , business sophistication and innovation .

Components of Make in India

- Revise Policy towards attracting and retaining investment
- Simplify rules and bring down barriers/ improve ease of doing business
- Build brand India Image
- Create necessary infrastructure
- Train manpower / Skill Development

Few Achievements

- Leading global players like ISUZU, FORD, SUZUKI and TATA have invested.
- First Indigenously developed Rotavirus launched by Honourable Prime Minister.
- India is the largest producer of agro-chemicals
- Foxconn comes to India
- Kellogs, Ferrero come to India
- Abbot, Mylan, Sanofi, Hospira have invested in Pharma sector
- Posco, Essar, Nippon Steel invested.
- JBF, Vardhman, P&G invested in textile sector

Telangana Govt Initiatives

- TSiPASS – Single Window System
- T-IDEA /T-PRIDE Schemes of Incentives
- No **1** in Ease of Doing Business
- T-Hub / We Hub
- TASK
- RICH
- TIHCL

TS-iPASS Act

- TS-IPASS stands for “Telangana State Industrial Project Approval and Self Certification System Act, 2014”(Act No.3 of 2014).
- Enacted on 3rd December,2014 , for implementing effective industrial clearance mechanism in the state.
- Platform for No**1** status in EODB Ranking in 2016

How is TS-iPASS unique?

- Single-point TS-iPASS approval based on self-certification by the applicant
- End to End Online System and End to corruption
- Processing of all types of clearances within 15/30 days of receipt of application
- Common application form
- Grievance Redressal Mechanism
- Right to clearances with penalty clause for Officer delaying approval

TSiPASS Process Flow-Application

- Register

2

- Submit Questionnaire
- Know Approvals & Fee Details

3

- Submit CAF

4

- Make Payment

5

- Download Approval

TSiPASS Process Flow- Dept

1

- Pre-Scrutiny-3 days
- Download Application / verify documents

2

- Query
- Complete Pre-Scrutiny or raise query

3

- Approval-1 to 30 days
- Approve or reject

TS-iPASS

Speedy processing for issuance of various licenses/ clearances/ approvals

Before TS-iPASS

1. Delay in approvals with requirement of other Dept NOCs/Approvals
2. Bulky physical application involving up to 100+ documents to be submitted
3. Payments only cash/ DD/ challans that necessitated visit to different offices.
4. Multiple visits to the departments

TS-iPASS

1. Time bound approvals with simultaneous processing
2. Rationalised attachments being sought by departments. Now, only 12 documents required for all approvals
3. Easy and safe online payments
4. Zero visits needed. End-to-end solution. Approvals can be downloaded online.

TS-iPASS

Speedy processing for issuance of various licenses/ clearances/ approvals

Before TS-iPASS

5. No Provision for Deemed Approval

6. Limited accountability of services and no tracking of status

7. Shortfalls/Queries being asked by different departments at different times and many a times more than once, by the same department.

8. Multiple windows within Single Window

TS-iPASS

5. Deemed Approval based on self-certification

6. Tracking of application is available. Toll free number to interact and track status is provided. Penalty Clause provided

7. Shortfalls/queries can be raised only once by any department, that too within 3 days of online application.

8. Single Window

The Impact as on 29-05-2019 (from 01-01-2015)

SINo	Stage	No.of,Industries	Investment in Cr	Total Employment
1	Commenced Operations	6896	76130.15	521377
2	Advanced Stage	633	21625.79	186702
3	Initial Stage	584	54400.53	348897
4	Yet to Start Construction	1991	11054.77	150182
	Total	10104	163211.24	1207158

- Game city
- E-City
- Mega Food Park

Make in Telangana-2

- Spice Park
- Plastic Park
- NIMZ
- Women Industrial Parks

A photograph of a small, rectangular, light-brown cardboard card with a hole on the left side. A piece of black twine is threaded through the hole. The card is placed on a wooden surface, possibly a tree stump, with several bright green, serrated leaves of a young plant in the background. The scene is brightly lit, suggesting a sunny day in a garden.

Thank
you!
