- **Vegetables** -Pumpkin, Tomato, Lady Finger, Brinjal, Spinach, Gourd etc.
- **Fruit crops**- Mango, Guava

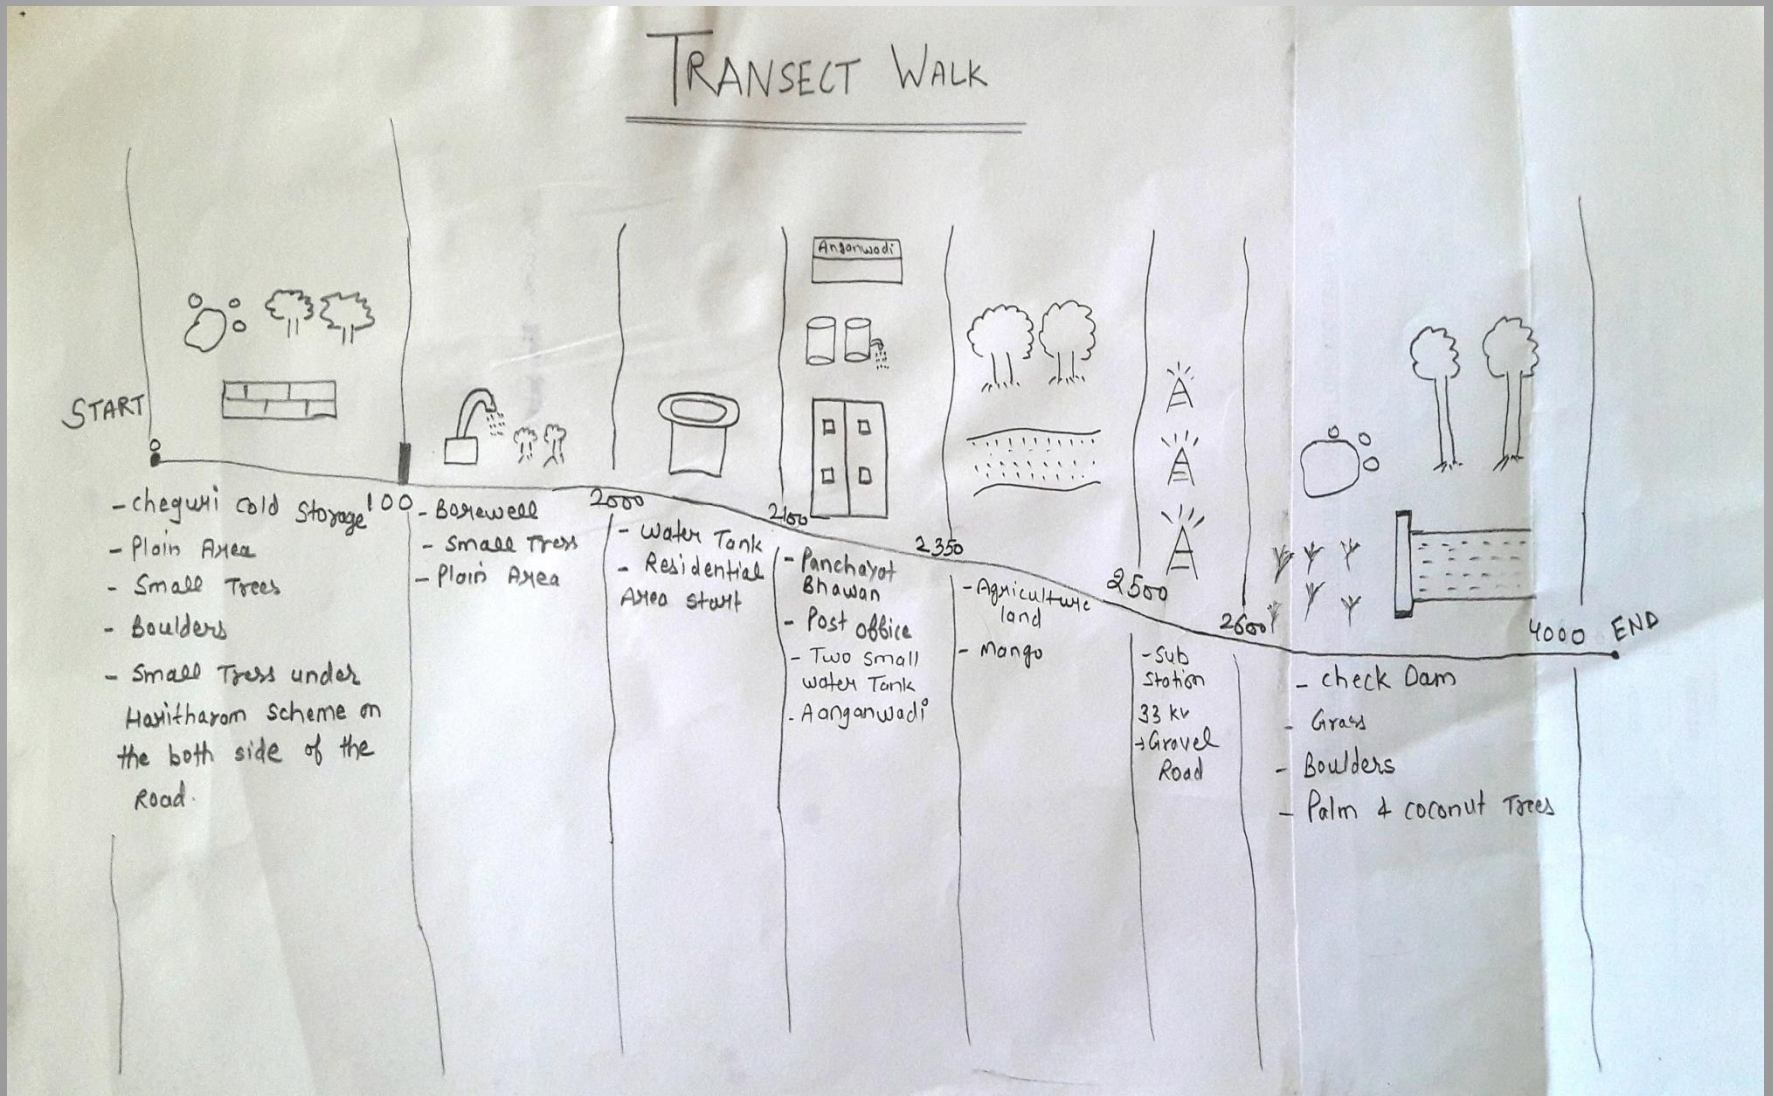

Participatory Rural Appraisal(PRA) Techniques

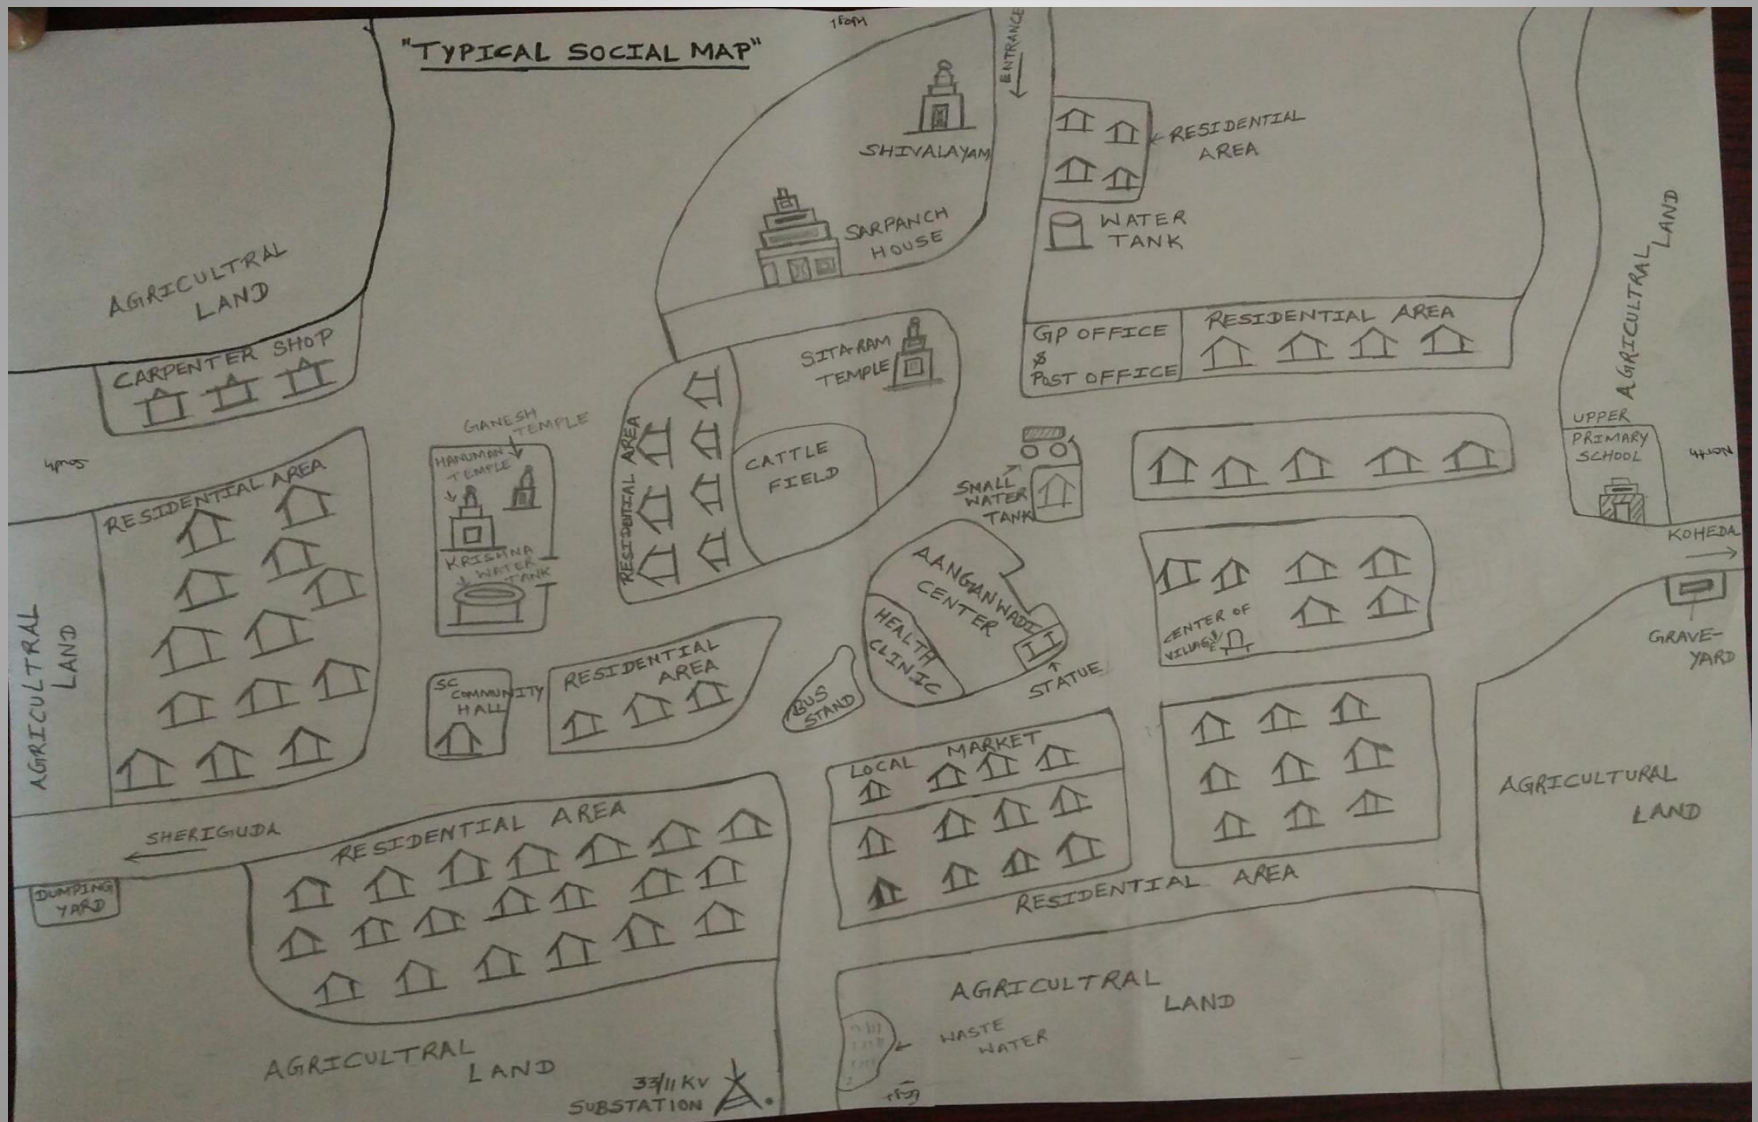

➤Our group conducted a series of PRA activities to find the present socio-economic structure, find resources, exchange ideas , locate problem areas and later find suggestive solutions with the active participation of the villagers.

Transect Walk

SOCIAL MAP(Ramdaspally)

Social Map (Chintapally Guda)

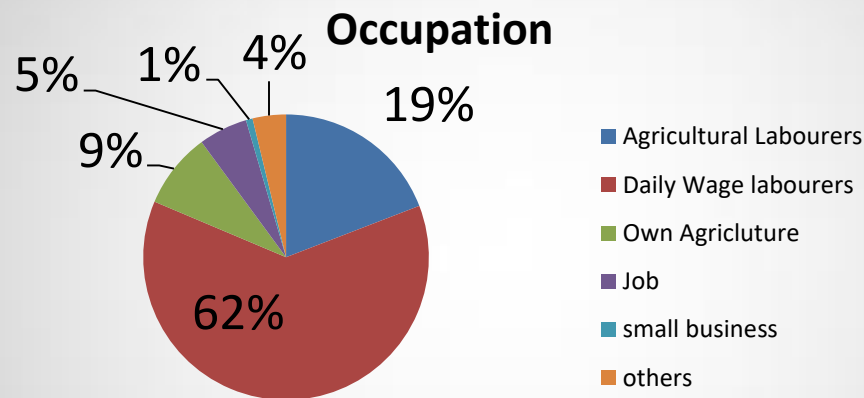

Socio – Economic Pattern

- Using the transect walk and social mapping exercise with the help of the villagers, our group was able to get some important information about the Village.
- The habitation pattern clearly indicates that different social groups and communities stay together with no clear separate colonies.
- The village has CC Roads in all the major areas. The villagers are very well aware about the Cleanliness of their home and surroundings.
- The village has large agriculture land but the major part of the agriculture land is owned by people from nearby villages like Sherguda, Koheda and Mangalpally.
- There are 182 BPL card holders.

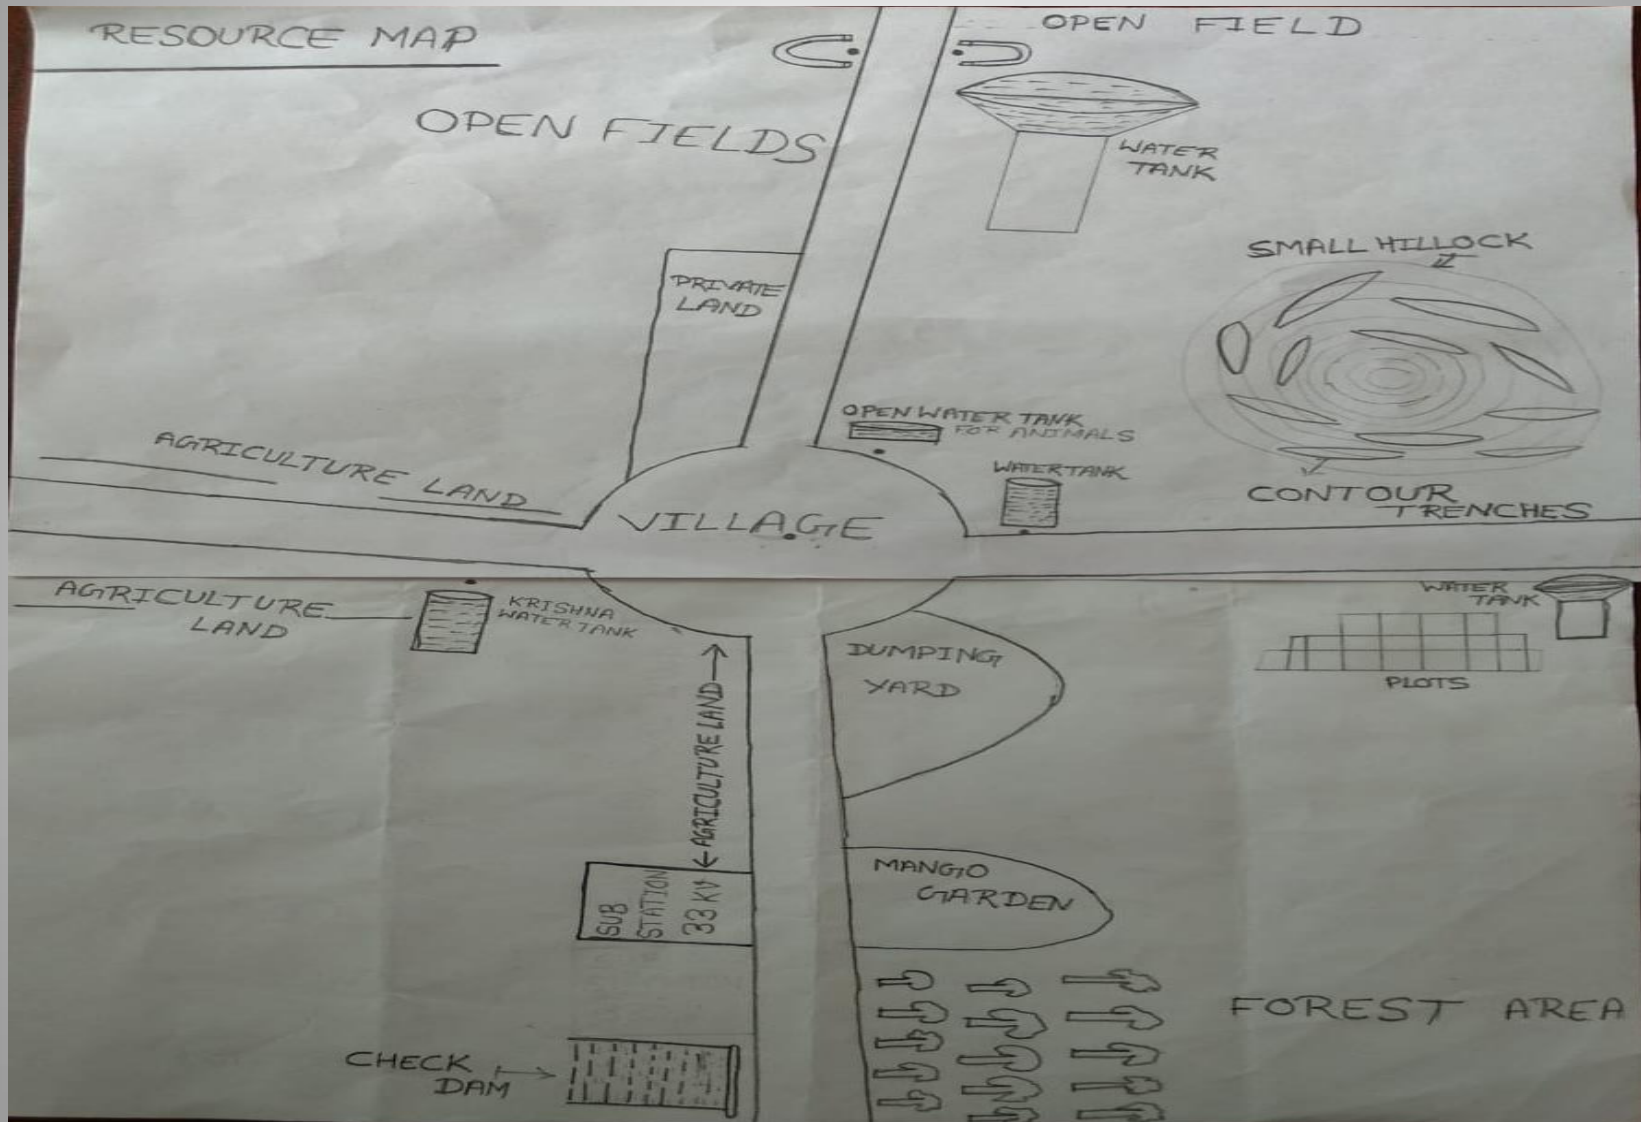

Socio – Economic Pattern

- Occupation pattern :

- Most of the villagers, specially from SC community, are daily wage agriculture laborers or MGNREGA workers.
- Most of the laborers are unskilled and uneducated and hence do not possess essential skills to work in other progressive fields.

RESOURCE MAPPING

Infrastructure & Resources

- Upper Primary School - 1
- Anganwadi – 1
- Post Office
- Gram Panchayat Bhawan
- Over Head Water Tanks- 1
- Mini Water Tank- 7
- Borewell-2
- RO Plant
- Check dam
- Substation – 33/11 KV
- SC Community Hall

Infrastructure & Resources.

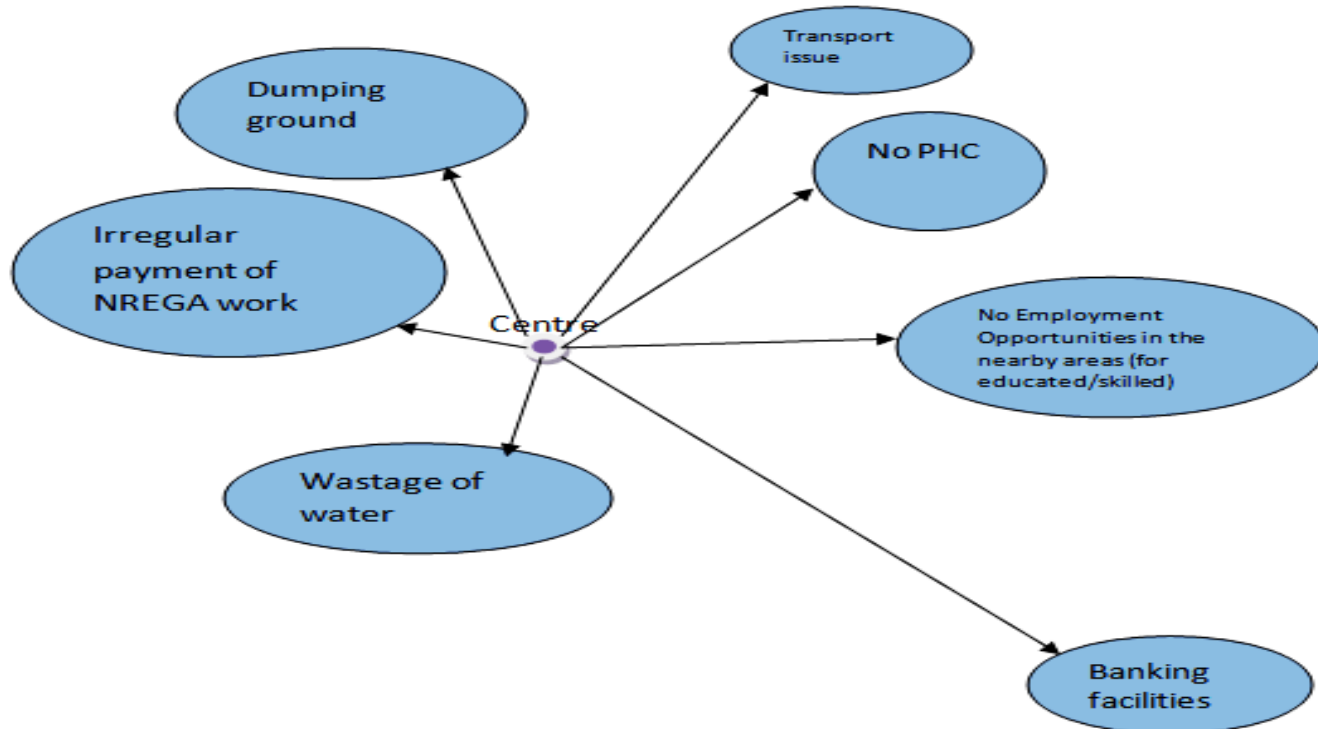

- The village receives a decent water supply for household purposes and has a RO Plant for drinking water.
- Village has been receiving uninterrupted 24 hours Power supply since January, 2018 with almost no power cuts. All the streets in the residential part of the village are well lit with LED/CFL lights.
- Aanganwadi plays an important role in basic education and health sector in the village. In absence of Primary Health Centre, Aasha worker and other aanganwadi workers are very important in the delivering benefits of health schemes to the villagers.

Venn/Chapathi Diagram

This diagram represents current problems in the village.

The size of the eclipse depicts the magnitude of the problem and its distance from the centre shows its priority.

Current Problems(1/4)

➤ Irregular payments under MNREGA scheme :

- i. Most of the labourers have not received their payments from 10-12 weeks.
- ii. Moreover, they are not sure about their daily wages.

Recommendations/steps:

- At least field assistant should do his duty diligently. It is his duty to timely provide and upload the details of daily work.

Current Problems(2/4)

- **Employment for educated/skilled class and Poverty** : In the absence of industries and other job opportunities, many educated persons were found working in MNREGA scheme.

Recommendations/Steps :

- i.The youth should be encouraged to participate in Govt programs such as “Job Melas”.

Current Problems(3/4)

➤ **Dumping ground problem :**

- i. No designated place.
- ii. Litter/garbage is thrown in fields adjacent to the village.
- iii. Health risks, especially, to the nearby houses.

Current situation:

A designated place , 2 Km away, has been assigned to the village for dumping facilities. But, local people from other area are not happy with it and its not functional.

Current Problems(4/4)

Wastage of water :

- People were found wasting water for their household purposes.
- People should be made aware against the wastage of water.
- Last year, village administration ran a campaign against wasting water. Similar, programs can be run.

Recommendations for Other Problems :

- Primary Health Centre should be constructed in the village for handling health issues/emergency cases.
- Public Transport can be made better according to the needs of the villagers as it is hindrance to the people doing job in the city.
- Bank Customer service point should be opened in the village.

STATE GOVERNMENT SCHEMES

➤ Aasara Scheme

Schemes under Gram Swaraj Abhiyan

GRAM SWARAJ ABHIYAN

Sabka Sath Sabka Gaon Sabka Vikas

Ministry of Panchayati Raj
Government of India

- **Pradhan Mantri Jan Dhan Yojana**
 - Around 85% people have bank accounts
 - under PMJDY, there are 360 accounts

- **Pradhan Mantri Jeevan Jyothi Bima Yojana**
 - Less awareness among people

- **Pradhan Mantri Suraksha Bima Yojna**
 - Less awareness among people

➤ **Pradhan Mantri Ujjwala Yojana**

- All households in the village have LPG connections
- Most of them under “DEEPAM” scheme.

➤ **Unnat Jyoti by Affordable LEDs for All (UJALA) Yojana**

- Not implemented in the village
- 62 out of 111 street lights are LED lights

➤ **Pradhan Mantri Sahaj Bijli Har Ghar Yojana – Saubhagya**

- 100% electrification
- 24 hours power supply

➤ **Mission Indra-Dhanush**

- Aim is to immunize left over children
- No left over children in the village

CONCLUSION

- The village is developed in terms of basic facilities, swachtha and security.
- State schemes are being implemented well.
- More awareness about state schemes compared to central schemes.

THANK YOU
